Hello and happy reading as we welcome everyone back to the start of another great year! With opening day just around the corner, we are gearing up for another great season at Paradise Cove and can't wait to see all our guests make new memories!

For those that made the trip to Minaki last season, know that the fishing is better than ever. A few years of very little pressure did good on an already amazing fishery, thanks to COVID!

Last year was the first year in quite some time that we had to deal with high water for the whole season. Which besides the cabins being extra close to the lakefront it didn't have any impact on the fishing! Check out some of the pictures in the highlights section of the newsletter!

This past winter has been mild, and we have had significantly less snow than we did last year so fingers crossed the thaw will be kind and won't impact the water levels too much.

2023 is starting out to be a great year and we look forward to when our first guests start arriving in May. If you are planning a trip to Paradise Cove Resorts this season, make sure to send an email to paradisecove@bellnet.ca or call 1-807-224-1107 to book. Cabins are booking very quickly, so don't wait!!

Just a reminder to old and new guests to check into Paradise Cove Park Marina prior to heading to your cabin. If you arrive after hours there is a list of cabins and locations in the window! If you have any questions, please call Duane.

Paradise Cove Restaurant will once again be open for breakfast, lunch, and supper. They have a great menu and something everyone in the family will love! If you haven't tried the pizza, it's a must! Stop by on your trip and visit Dawna and the rest of the Paradise Cove Restaurant and Bar staff for great food and cold drinks!

- The species of all fish in your possession, even the species without restrictions.
- Keep all skin or a piece on to identify the species.
- Tip: Package fish flat, in a single flat layer and only place one fish per package.

100% of your license sales go towards the future of fish and wildlife in Ontario.
